REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The prior art does not show or fairly suggest the claimed invention of a variable lens and related methods having the claimed structure and claimed limitations, wherein a rejection under 35 USC 102 or 103 would be improper. Please particularly note the combination of claimed elements and claimed limitations, including the arguments and amendments to the claims provided by the Applicant in an amendment filed on 7-2-07. Claims 4 and 6 were indicated as having allowable subject matter in the office action mailed on 4-6-07, and are now in condition for allowance. All other independent claims (claims 1, 8, 11 and 12) currently have been amended to include the limitation that the meniscus is altered along the optical axis "without changing a shape of the meniscus," which is considered to be allowable subject matter.

Therefore, in light of the Applicants' arguments and/or amendments, the claimed invention is considered to be in condition for allowance as being novel and nonobvious over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
